UCC Student Learning Outcomes

For 2010-2011, the Office of Student Affairs established an Assessment Committee comprised of representatives from all departments. The committee worked weekly during the academic year to articulate Student Affairs domains and departmental learning outcomes. These outcomes will be assessed by the UCC during the 2011-2012 academic year.

Sexual Assault Prevention Student Learning Outcomes

- As a result of participating in Advocates Training, students and faculty/staff will articulate two or more personal values that underlie service as a Loyola advocate.
- As a result of participating in Advocates Training, students and faculty/staff will identify common dynamics of interpersonal violence in intimate relationships and recognize common reactions to sexual assault.
- As a result of participating in Advocates Training, students and faculty/staff will demonstrate skills of victim-centered, non-directive communication in role play activities.
- As a result of participating in Advocates Training, students and faculty/staff will list three or more local/campus resources for victim assistance.

Substance Abuse Prevention Student Learning Outcomes

- As a result of completing the online education module Alcohol Wise, first year students will identify 5 strategies for risk reduction regarding personal alcohol use.
- As a result of participating in Campus Crawl, students will describe at least 3 negative consequences associated with high risk drinking on personal, academic, and career goals.
- As a result of participating in Campus Crawl, students will demonstrate skills for responding to an alcohol poisoning emergency.
- As a result of participating in Campus Crawl, students will identify at least 2 personal values that influence decisions about alcohol and drug use.
- As a result of participating in Ice Cream & Intervention, students will demonstrate at least one method for reaching out to a peer engaging in high risk alcohol behaviors.

Direct Services (Individual Counseling) Student Learning Outcomes

- As a result of engaging in individual counseling services at the University Counseling Center, students will articulate at least two problem solving or coping skills to apply to personal concerns.
- As a result of engaging in individual counseling services at the University Counseling Center, students will identify at least two sources of social support through personal relationships and/or campus resources.
- As a result of engaging in individual counseling services at the University Counseling Center, students will identify at least two personal strengths that they can apply to managing stress.
- As a result of engaging in individual counseling services at the University Counseling Center, students will identify at least one personal value or belief that positively impacts decision making and/or emotional health.
Tobacco Free Living Student Learning Outcomes

- As a result of participating in Fresh Campus event planning, students will identify at least 5 negative consequences associated with tobacco use and exposure to secondhand smoke.
- As a result of participating in Fresh Campus event planning, students will identify at least 3 marketing methods to promote Fresh Campus events.
- As a result of participating in Fresh Campus event planning, students will identify at least 3 smoking cessation resources provided by the Tobacco Free Living initiative and Loyola University.
- As a result of participating in Fresh Campus event planning, students will articulate at least 1 way student tobacco use impacts the campus community.
- As a result of participating in Fresh Campus event planning, students will identify at least 2 specific populations the tobacco industry targets through product advertising.
